

Yani Aliche

Olathe, Kansas | (913)-286-9882 | yanialiche07@gmail.com | www.linkedin.com/in/yanialiche

EDUCATION

Cornell University, Duffield College of Engineering; GPA: 3.3

Ithaca, NY

B.S. in Mechanical Engineering, Minor Aerospace Engineering

Aug 2025 – May 2029

Relevant Coursework: Calculus II, General Chemistry, Multivariable Calculus (In Progress), Physics I: Mechanics & Heat (In Progress), Intro to Computing Using Python (In Progress), Engineering Operations: Data Science and Decision Making (In Progress)

SKILLS

Technical: Fusion 360, Inventor, AutoCAD, 2D drafting, 3D printing, Microsoft Office Suite (Excel, Word, PowerPoint)

Programming: Python, MATLAB

Language: English (Native), Tamazight (Native)

PROJECTS & RESEARCH

Independent Research – Airfoil Surface Design and Aerodynamic Performance

Sept 2024 – May 2025

- Adapted and 3D-printed airfoils with varied surface patterns to evaluate aerodynamic efficiency
- Analyzed lift and drag data using experimental design methods to determine performance differences
- Presented findings at the Greater KC Science & Engineering Fair; awarded *1st Place, Engineering Mechanics Division*

Airfoil Design & Analysis Project

Aug 2025 – Oct 2025

- Built on previous airfoil research by modeling research airfoils in SolidWorks
- Applied CFD and FEA simulations to analyze lift-to-drag ratios and wing stress under aerodynamic loads
- Further learned how to integrate CAD, CFD, and FEA for engineering applications

Open-Fan Engine Design Project (CAD)

Jan 2026 – Mar 2026

- Designed a conceptual open-fan jet engine using Fusion 360 and SolidWorks
- Modeled complex fan blades and internal turbine components
- Developed skills in CAD surfacing, assemblies, and parametric modeling

LEADERSHIP EXPERIENCE

3D Modeling Team Leader – Burns & McDonnell Battle of the Brains

Sept 2023 – Nov 2023

- Coordinated sub-team meetings and guided discussions to align design goals and deadlines
- Helped teach teammates how to use the modeling software while learning advanced features to improve efficiency
- Balanced team training and project demands under strict timelines, ensuring accurate and competition-ready designs

Co-President – Muslim Student Association (MSA)

Aug 2024 – May 2025

- Oversaw budgeting, fundraising, and event planning
- Organized a community fundraiser with local high schools, raising \$4,000 to support cultural and educational initiatives

HONORS & AWARDS

- Cornell Tradition Fellow *Aug 2025 – Present*
- OIE Engineering Scholar *Aug 2025 – Present*
- GKCSEF Engineering Mechanics — Senior Division Winner *Mar 2025*
- Governor's Scholar *Mar 2025*

ACTIVITIES & INTERESTS

- Member of Cornell Muslim Educational and Cultural Association (MECA); Intramural Soccer participant and Intramural Referee
